## **Hiking**

### **"BOOTS AND BLISTERS"**

"Betar hiked over the mountain, and what do you think they saw? Another B----- mountain." These are a few of the words that spring to mind when any Betar mentions hiking.

Hiking is definitely the highlight of a camp or seminar. The spirit is tremendous, and the people feel part of one group with the same problem:— "When are we going to finish?" A night under the luminated skies, or an evening in a farmer's barn, or countless blisters on your feet are all part of the "fun". It is tremendous when, after a hike, you race back to Machaneh knowing that you made it!!

## **Seminar**
